

FOR IMMEDIATE RELEASE

**MicroMenders, Inc. Becomes GLOSTREAM Platinum Partner
MicroMenders Now Qualified to Sell and Support gloStream
Electronic Medical Record and Practice Management Solutions**

San Francisco, CA (July 22, 2009) – **MicroMenders**, an information technology (IT) Managed Services and Consulting company serving the San Francisco Bay area, announced today that it has become a gloStream Platinum level partner. As such, **MicroMenders** has proven it has the IT proficiency and capability to sell and support gloStream’s voice-enabled, Microsoft Office embedded electronic medical record software, and practice management solutions to physician practices.

“With our twenty-four years of experience as an IT Service Provider in helping Bay Area customers leverage technology, we are excited to transform quality of care while simultaneously improving productivity and efficiency for doctors and their staffs,” said **Dave Sperry, President and CEO, MicroMenders, Inc.** “We want to help doctors experience these benefits and with gloStream technologies and MicroMenders **TIER5** support, we’re now able to offer local doctors important tools to improve their practice and business bottom line.”

The gloStream partner program offers **MicroMenders** access to sales, marketing and support tools, special trainings and a variety of other programs. MicroMenders also now has the capability to tap into best practices from leading gloStream doctor clients all over the country. The organization will use these tools to enhance its brand recognition and increase its footprint within the healthcare community while providing valuable local support to the physicians they serve.

“gloStream is very excited to add such a significant partner to our team,” said John Bamberger, gloStream’s Chief Channel Officer. “MicroMenders is a very large and experienced IT Services provider partners and also has been recognized as one of the top Managed Services firms in the world. We are thrilled with the coverage we offer on the West Coast and confident that Bay Area Doctors will benefit from the MicroMenders customer support services.”

About MicroMenders, Inc.
